

Workshop “Biometrical Aspects of Genome Analysis XIII” (Formerly Rauschholzhausen Workshop)

21st-22nd February 2019 in Lübeck (Germany)

Invitation and Call for Abstracts

Contributions on genomic and genetic data analysis are welcome. We explicitly encourage the submission of work in progress and on unsolved issues.

Deadline for abstract submission: 15th December 2018

Invited Talks:

Handling of cell-type heterogeneity in epigenome-wide association studies

Andrew E. Teschendorff

(University College London / Shanghai Institute of Biological Sciences)

Single cell isolation and analysis: Methods and applications

Stefan Kirsch

(Fraunhofer Institute for Toxicology and Experimental Medicine, Regensburg)

Further Information, Registration and Abstract Submission:

<https://www.uni-kiel.de/medinfo/mitarbeiter/szymczak/workshop/>

Organisation Team:

Maren Vens, Dmitriy Drichel (GMDS AK “Humangenetik”)

Sonali Pechlivanis, Peter Ahnert (DGepi AG “Genetische Epidemiologie”)

Silke Szymczak, Miriam Kesselmeier (IBS-DR AG “Populationsgenetik und Genomanalyse”)

Financially supported by the GMDS, the DGEpi and the IBS-DR
