* Please provide proof when registering via fax to Conventus +49 (0)3641 311 62 43, or via mail to Conventus GmbH • Password: DGfI 2013 • Carl-Pulfrich-Straße 1 • 07745 Jena

Please register online via www.immunology-conference.de!

General Information

**Venue and Date**

University of Mainz
Saarstraße 21 • 55122 Mainz (DE)
11–14 September 2013

**Conference Website**

www.immunology-conference.de

**Organiser**

German Society for Immunology
Deutsche Gesellschaft für Immunologie (DGfI) • www.dgfi.org

**Conference Chairs**

Ari Waisman  
Hansjörg Schild
Institute of Molecular Medicine  
Institute for Immunology

University Medical Center of the Johannes-Gutenberg University of Mainz

**Important Deadlines**

Abstract Deadline  
20 May 2013

Early Registration Deadline  
30 June 2013

**Conference Language**

The official congress language will be English.

**Transfer and Accommodation**

Exclusively for the 43rd Annual Meeting of the DGfI the Deutsche Bahn AG offers a special round trip fare to Mainz. For more information please visit www.immunology-conference.de. We have reserved hotels in different price categories.

**CME Points**

The annual meeting is registered for CME points at the Medical Chamber of Rhineland-Palatinate.

**Conference Organisation and Industrial Exhibition**

Conventus Congressmanagement & Marketing GmbH

Please register online via www.immunology-conference.de!
Welcome Note

Dear Colleagues and Friends,

On behalf of the board of the German Society for Immunology (DGfI) we are delighted to invite you to participate in our 43rd Annual Meeting to be held in Mainz, Germany from 11–14 September, 2013. The conference will take place on the University’s campus and bring together about 1,000 students and professionals from academia, industry and government organisations. During plenary sessions and workshops, an international and national delegation of renowned scientists, will present and discuss the stated main topics of basic and translational immunological research: Tolerance, T cell plasticity (transcriptional regulation of immune cells), APC/T-cell interaction, Signalling, Pattern recognition, Controlling immune responses, Autoimmunity, B cells, Immune organogenesis, Innate effector cells, Tumor immunology, Gut (mucosal immunity). To support the broad scope of the conference, we encourage you to participate actively by submitting your abstract related to one of the abstract topics. The lovely city of Mainz will certainly provide the perfect frame for an unforgettable event.

We are looking forward to see you all in September 2013 in Mainz!

Yours

Ari Waisman
Conference Chairs

Abstract Submission and Prizes

We cordially invite you to submit your abstract to the following workshop topics. Abstracts are to be submitted online on www.immunology-conference.de and in English only until 20 May, 2013.

Topics
- Adhesion molecules
- Autoimmunity
- B Cells
- Calcium signal transduction
- Clinical immunology
- Complement and FC receptors
- Dendritic cells
- Effector function of T cells
- Gamma Delta + NK T cells
- Granulocytes + Mast cells
- Immune response in the skin
- Immunodeficiencies
- Infection immunology
- Lymphocyte activation
- Macrophages
- Mechanism of tolerance induced by T cells
- Mucosal immunity
- NK cells
- Reproduction immunology
- Signal crosstalk between the immune and the nervous system
- Signal transduction in non-lymphoid immune cells
- T helper cell differentiation
- Transplantation immunology
- Tumor immunology (CIMT)
- Vaccination and immune memory
- Veterinary immunology

Poster Prizes
Poster prize awards will be awarded at the conference. The prizes are sponsored by PeproTech GmbH.

Awards
The following prizes will be awarded:
- Fritz-und-Ursula-Melchers-Preis
- Georges-Köhler-Preis
- Hans-Hench-Preis für Klinische Immunologie
- Herbert-Fischer-Preis
- Otto-Westphal-Promotionspreis

Sponsor of the Otto-Westphal-Promotion Prize and Georges-Köhler-Preis

Porsche AG

Please find more information on the conference website www.immunology-conference.de.

Preliminary Programme

Symposia
- APC/T-cell interaction
- T cell plasticity (transcriptional regulation of immune cells)
- Tolerance

Sessions
- Autoimmunity
- B cells
- Controlling immune responses
- Gut (mucosal immunity)
- Immune organogenesis
- Innate effector cells
- Pattern recognition
- Signalling
- Tumor immunology

Workshops
- Adhesion molecules
- Autoimmunity
- B Cells
- Calcium signal transduction
- Clinical immunology
- Complement and FC receptors
- Dendritic cells
- Effector function of T cells
- Gamma Delta + NK T cells
- Granulocytes + Mast cells
- Immune response in the skin
- Immunodeficiencies
- Infection immunology
- Lymphocyte activation
- Macrophages
- Mechanism of tolerance induced by T cells
- Mucosal immunity
- NK cells
- Reproduction immunology
- Signal crosstalk between the immune and the nervous system
- Signal transduction in non-lymphoid immune cells
- T helper cell differentiation
- Transplantation immunology
- Tumor immunology (CIMT)
- Vaccination and immune memory
- Veterinary immunology
